

**Deangersmith – Lead Us To Your Taker (Disable The Corrupt) Full
Album Lyrics**

Lead Us To Your Taker (Disable The Corrupt)

You disgust me
You make me fucking sick
You prey on the weakened ones
You're taking all they have
We gonna take you down

We are just living our lives
Lead Us To Your Taker
We are just living our lives
We'll send him to his maker
We are just living our lives
Disable the Corrupt
You cannot take from us what we will not give to you

We've given you all that we have
We've got little to show for it
You've taken our life force away - used it all in vain
We gonna take you down

We are just living our lives
Lead Us To Your Taker
We'll keep on dying to survive
We'll send him to his maker
We are just living our lives
Disable the Corrupt
You cannot take from us, what we will not give to you

Freedom Fighter

All your life you've been conditioned for this
Defending a flag of lies, built by deceivers
Aim your rifle, it's either hit or miss
You're bleeding out while they celebrate the win

Fight for freedom Fight for rights
You believe in something the doesn't exist
Fight For Freedom Fight For Rights
You have been deleted from their lists

They will eat the words that we don't believe
The very words that they wrote down
The very words that we now deceive

Let's all join forces and march against the 'man'
Many hands make light work let's bring them to the stand
They shall be held accountable by their own laws
What's good for one is good for all this is their democracy

They will eat the words that we don't believe
The very words that they wrote down
The very words that we now deceive

Fight for freedom Fight for rights
You believe in something the doesn't exist
Fight For Freedom Fight For Rights
You have been deleted from their lists

Dead Black Heart

You're not the person that you want us to see
Don't even know who you're trying to be
Got hurt so bad when you were still precious
You think you're damaged but it's only superficial
You feel so lost, lost in these times
You've gone too far again, far lost in your mind

I'm trying to feel alright but it's all wrong
I'm trying to fight the fight but the fight is all gone

The hatred you give, is crushing you down
The Darkness you shine, is killing you now
The hatred you give, is crushing you down
The Darkness you shine, is killing you now
Your self-worthlessness, is all in your head
The sickness it brings, is killing you now

I read between the lines yes i do
I see straight through the lies - I CAN'T BELIEVE YOU
You keep on eating all the shit they feed you
I'll keep believing that maybe we can save you
You feel so lost, lost in these times
You've gone too far again, far lost in your mind

I'm trying to feel alright but it's all wrong
I'm trying to fight the fight but the fight is all gone

The hatred you give, is crushing you down
The Darkness you shine, is killing you now
The hatred you give, is crushing you down
The Darkness you shine, is killing you now
Your self-worthlessness, is all in your head

The sickness it brings, is killing you now

The Darkness you shine
Is burning a hole right through
Your Dead Black Heart
It will be the END OF YOU

Everything That You Have Done

You want to stay
You want to go
You don't even know
How must I know?

We wanted to stay
We knew we had to go
How could we have known
We would die to be free

The further down that I keep going
The more I need you by my side
The further down that I keep going
The more I need you with me
And everything that you have done
I keep it with me in my heart
I take it with me.....

Now that you're away
You wish you were here
I don't even know
How could you know
Now that I;m gone
You wish I was near
Hurry back my love
Come set me free

The further down that I keep going
The more I need you by my side
The further down that I keep going
The more I need you with me
And everything that you have done
I keep it with me in my heart
I take it with me.....

Buckle My Shoe

Put Your Mask On
Keep Your Mouth Shut

Don't You Say A Word
Stand In Line
Wait Your Turn
Don't You Move Until We Say So
Put Your Arm Out
We Gonna Stick The Needle In
We Gonna Own you From Within

These Are The Times We Live In
This Is The Rise And The Fall
We Have To Stand Up And Fight
For The Truth We Know To Be Right

You Gotta Lead Us By Example
You Just Stand There And Dictate To Us
We Don't Wanna Be A Part Of This
You Try To Feed Us On The Lies You Tell
If You Believe It You Can Go To Hell
We Are The Freedom You Refuse See
We Are The Fire We Are The Burning Bush
Our Time IS Now We Are The Truth

These Are The Times We Live In
This Is The Rise And The Fall
We Have To Stand Up And Fight
For The Truth We Know To Be Right

Put Your Mask On
Keep Your Mouth Shut
Don't You Say A Word
Stand In Line
Hurry Up Now
Put Your Best Arm Out

The Bigger They Are The Harder They Fall

Your dagger eyes like funeral pyres they crucify - so Pious
Butterflies floating disguise masked assassins for hire

The bigger they are the harder they fall
He learned to walk before he could crawl
I gave you my heart I gave you my soul
I will bleed until the day that I am added to the death toll

Once it is said and once it is done
Will you be proud of me?
When you look up to the sky

As I Fade to black reduce my soul to ash

Absolve me from my sin - you win
Your Black Tongue Whip that sinks those ships
deeper into my skin

The bigger they are the harder they fall
He learned to walk before he could crawl
I gave you my heart I gave you my soul
I will bleed until the day that I am added to the death toll

Life Of Love

How Do You Know This Feeling Of Love
How Do You Feel This Love Of Knowing
How Can We Survive This Love For Life
When We Are Dying For A Life Of Love

Is It Me Or Is It You?
How Will We Know What To Do?

You've Got A Heart Like A Sponge, Soaking It Up
I Can't Get Enough Of The Love That's Flowing In
Me All Me You All You
Should We Succumb & Can We Trust

Is It Me Or Is It You?
How Will We Know What To Do?
Is It Us Or Is It Not
We Forgot To Love This Life

Hollywood Is Burning

Trust Has Been Abused
Made To Look A Fool
Here Comes The Biting Wolves
Lost And Confused
The Ever-Lasting Blues
His Feelings Misconstrued

Hollywood Is Burning
Burning Down The Town
Hollywood Is Burning
Melt Those Pedo's Down

Promises Of Fortune
Guarantees Of Fame
But First You Gotta Play The Game
Heads They Win Tails They Win
It Doesn't Matter It's All The Same

Are You Ready For A Lifetime Of Pain

Hollywood Is Burning
Burning Down The Town
Hollywood Is Burning
Melt Those Pedo's Down

Save Yourself Or Save The World

Darker than the depths of hell
The sensation that seethes within
Heavier than the soundings of
Ten thousand fucking war machines

Meaner than the self-made monsters
that you find - you fear - you flee from
when you fly above the poppy fields
who you fight or play with in your dreams

Save Yourself or Save The World
All the saviours and all the prayers that could be said on earth
All the hopes we have for heaven and about whose hell we're in
Could save the world from me nor save you from yourself.

Deeper than the darkest pit
The world that wallows in it's sin
Heavier than all the hammers
A thousand warriors could ever bring

Harder than what your fathers had
The things they hid from as a child
Sadder than your mothers' tears
Safer than the laws by which we abide

Save Yourself or Save The World

All the saints and salvations could be given to this world
All the martyrs that we make in the names of God for heaven's sake
Could save the world from me nor save you from yourself.

Save Yourself or Save The World

Deangersmith - Metal Mad Me Do It (Full Album Lyrics)

Die Religion Die

An eye for an eye and a tooth for a tooth

Getting you nowhere after nowhere
Keep on making the same mistakes a 1000 years after years after years
Let him without sin launch the first missile
We take another eye we take another tooth we kill another child
Now turn the other cheek

Die Religion Die

The body of Christ The Devils Blood Destroyers of Life Killers of Love

Whoever sheds the blood of man, by man shall his blood be shed,
Whoever strikes a man to death shall be put to death.
Though shall not murder.
The voice of your brother's blood is crying to me from the ground.
For the wages of sin is death

Die Religion Die

No time to love, only time time to hate; For nation will rise against nation,
A time for war, and no time for peace. kingdom against kingdom,
There will be famine, there will be death Love your enemies and forgive their sins
against you
Pray for those who persecute you

Even though I walk through the valley of the shadow of death,
I will fear no evil,
In the presence of my enemies i will keep on fighting till the last breath
An eye for an eye and a tooth for a tooth Getting you nowhere after nowhere
We take another eye we take another tooth we kill another child
Now turn the other cheek

Die Religion Die

Live It Down

There's an angel, watching over you
Like a daredevil,
There's an angel, coming for you
Like a daredevil
Wanting His dues.....

He's lived 1000 pieces of eternal time Everlasting
He comes from barren lands
Made from Metal & Rock
Open your heart now, embrace the Promised Land
Everlasting

You will never live it down
Don't you know?

There's a demon, buried in you
Setting you Free
Never ending omniscient
There's a demon buried in you
His name is Rock & Metal
Setting you Free
Never ending
He's come to take you home,
Unto the Promised Land
Everlasting

You will never live it down
Don't you know?

Into Oblivion

This ain't no rumour you may have been told
That when I found you I had struck gold
I don't believe it there's not a true word
You cannot trust everything you have heard
So all I need is for you to believe me
everything I say is just what I mean

I'll fight for you & I'll Die for you
Will you do the do the same for me

I'd Kill for You & Take Pills for You
Will you walk the line with me

I'll brave the night, I'd give up my sight
just to be closer to you

I'll hold you tight, Kiss you goodnight
on this final journey

INTO OBLIVION

So now you know that I mean what I say
That's all that matters at the end of the day
How can you trust me when I have deceived you
I'm only giving back what I received
So can you tell me how does it feel
is this a lie or can it be real?
I really love you with all my heart
I will honour you till death do us part

I'll fight for you & I'll Die for you
Will you do the do the same for me

I'd Kill for You & Take Pills for You
Will you walk the line with me

I'll brave the night, I'd give up my sight
just to be closer to you

I'll hold you tight, Kiss you goodnight
on this final journey
INTO OBLIVION

This Is How We Rock

Here we are again playing our hearts out for you
Next minute blood starts to fly
Your men are beating on my man I shout for him to run
Bullets start to fly
Now we're on your death list
and we have to play 10 gigs for you or we die

This is how we rock
This is how we roll
Let the truth be told
In the heart of Johannesburg

There I am waiting on the stage for my hero brother
He brings the bass to the show
Your henchmen are trying to break his bones outside tonight
He's even stronger than his pride
He rocks the show like a pro that he is,

we meet outside with horns held high \m/ \m/

This is how we rock
This is how we roll
Let the truth be told
In the heart of Johannesburg

There's our main man standing aka Re Rosa
For him i lay my life on the line
Your fucken monkey boys are beating him with their guns
Blood is running from his face
He's the man who still stands with truth in his eyes

they will never beat him down

This is how we rock
This is how we roll
Let the truth be told
In the heart of Johannesburg

We were drinking beer in Rockey Street,

after one of our shows
Hammer flying into my head
You're twice my size to my surprise

your ego is even bigger
Stitches in the back of my head
Thanks to you Mrs Spaddavecchia bless her soul

I still owe her for that deed

This is how we rock
This is how we roll
Let the truth be told
In the heart of Johannesburg

I See Your Curse (Through the eye in the back of my mind)

Woke up this morning not feeling to good
I see your curse through the eye in the back of my mind.
I'm feeling bad vibes coming from darkness
I see your curse through the eye in the back of my mind
No use doing what you doing I'm protected
I see your curse through the eye in the back of my mind

A life long gone but you drag it along
I see your curse through the eye in the back of my mind.

Holding me ransom for things that can't be undone...

I see your curse through the eye in the back of my mind.
Keeping me tied to things I should have denied
I see your curse through the eye in the back of my mind.

Wishing ill fate & hate on the ones that I love
I see your curse through the eye in the back of my mind
Casting your spells that chase me further away
I see your curse through the eye in the back of my mind
You can't control me i am something that is Free
I see your curse through the eye in the back of my mind

Feeling joy from bad things done in spite
I see your curse through the eye in the back of my mind
Is not way to better your sorry life
I see your curse through the eye in the back of my mind
I pray for you and I hope you get it right someday
I see your curse through the eye in the back of my mind

It's All Just Metal To Me

I love it when the music is heavy
I love it when the music is loud
I like running from the stage
And diving high above the crowd
Do you know what I am talking about
A power rush right to the brain
And then you jump back up again
And throw your fist in the air
And bang your head some more

Black Metal
Death Metal
Doom Metal
Grind Metal
Thrash Metal
Speed Metal
Heavy Metal
Power Metal

It's All Just Metal To Me
I can feel it running through my veins
I can hear it beating in my chest
It's alive and kicking in my mind
It's something that can never be changed
I love it when the music is heavy

I love it when the music is loud
A power rush right to the brain

Black Metal
Death Metal
Doom Metal
Grind Metal
Thrash Metal
Speed Metal
Heavy Metal
Power Metal
It's All Just Metal To Me

The Devils of Loudun

You must not listen to the words they say
They're only trying to corrupt your mind
You cannot fear the threats that they make
They're tricking you to come and lay in their beds
They're chasing demons trying to capture a free man

The Devils of Loudun

Blind souls darkened with pride, hearts filled with perversity.
Tell him God will have mercy & proceed to burn him alive
Holy water and devils daughters could not bring him to cry

The Devils of Loudun

They were seventeen possessed,
By The Devils of Loudun
Forty days of torture Forty days of Pain
Demons in the bodies of the exorcised,

You must not listen to the words they say
Their hearts are filled with perversity
They're only trying to corrupt your mind
Tell them God will have mercy
They're chasing demons They're chasing demons
Demons in the bodies of the exorcised

The Devils of Loudun

The Worst Come True

Looking at you
I see me
Living the dream
You can be
Believing it's me
Can be you
Sobering thing
Runs right through

Raising the bar
I can't reach
Brings me down
Underground
Living to bleed
Out with you
Bleeding to live
With you too

The things that seethe
From womb to womb
The same dark place
The worst come true
The God damn blame
The fist of doom
The foot in the mouth
Fits the shoe

The Worst Come True

Believe

Hey What The Fuck Are You Thinking? Are You Thinking at All?
You Don't Even Know It Baby, But Its Bringing You Down
Can You Feel It? Do You Believe It? It's Taking You All The Way...
I Got a Habit, A Bad Habit, It's Fucking Driving Me Insane
It's Coming On, So Strong, Oh Baby Can You Feel It?
It's Coming On, Atom Bomb, God Damn it Here We Go....

Hey now Have You Learned Your Lesson I Don't Want to Ask You Again?
No Use Dwelling On The Past When There's No Hope For The Future

We Always Seeking What We Can't Have
Paying No Attention To What We Have Achieved
Always Curious Within Ourselves We Do Not Believe
Sail On Move Away I Hope We Find What We Need
I Hope We Find What We Think We're Missing
I Hope We Find Something To Believe

Too Late For the Merciless Fate I'm Trying Hard To Find a Way Now
Do You Think There Might Be Something Left After Giving It All To Denial?
Can You Feel It? Do You Believe It? It's Taking You All The Way...
I Got a Habit, A Bad Habit, It's Driving Me Insane
It's Coming On, Atom Bomb, Oh Baby Can You Feel It?
It's Coming On, So Strong, God Damn it Here We Go....

I Can't Believe You

She told me there is no other
That's when I told her that nothing ever stays the same

I can't believe you now
Why should I believe you ever

Shine

You Feel Like You've Finally Broken Down
When The Love Has Gone Away

You Have to Find A Way To Carry On
No Matter What They turn Around And Say

You Gotta Dig Deep Inside
And Find the Strength To Shine
Find The Strength To Shine
Dig Deep Inside
Find The Strength To Shine
No Matter What They turn Around And Say
You Gotta Dig Deep Inside
You Gotta Find the Strength To Shine
